<b>SPRAY POSITIONS</b>	<b>Automated Voice Instructions</b> Guide tanners through 2 spray positions	<b>Position Tracking and Feedback</b> Sensor-based position tracking and illuminated feedback	<b>Easy-To-Use Positions</b> Intuitive spray tanning positions		
<b>SOLUTION SPRAY &amp; HEATING SYSTEM</b>	<p><b>MagneTan® Spray System</b> - MagneTan® energizes the spray to attract mist to the skin for even coverage all over the entire body</p> <p><b>Fixed Pivoting Spray Nozzle</b> - A gentle sweeping spray from the fixed pivoting spray nozzle system ensures complete coverage for all shapes and sizes</p> <p><b>Heating</b> - 2500 W of heating to keep the booth warm and cozy</p> <p><b>Air Flow</b> - State-of-the-art crossflow fans for smooth, even air flow to keep the booth comfortable during the tanning session</p>				
<b>SOLUTIONS</b>	<b>Tanning Solutions</b> Tan & Activate for 12 tan levels to find the right shade to match your skin tone and mood	<b>Myxers:</b> <b>Accelerator</b> - For a faster, deeper, darker tan <b>Bronzers</b> - Kona, Island, Mocha <b>Scents</b> - Coconut Lime, Warm Vanilla, Fresh, Summer Dream			
<b>SOLUTION STORAGE SYSTEM</b>	<p><b>Bulk Bag-In-Box</b> - 1.4 gallon bag-in-box containers provide easy handling and quick change out of your most used solutions while keeping the important solutions fresh and ready to tan</p> <p><b>Myxer Pouches</b> - 250 ml pouches for accelerators, bronzers and scents allow for maximum customization. Fill out your 6 myxer positions for your customers' needs or change them out seasonally to meet demand</p>				
<b>CLEANING</b>	<p><b>Automatic Washdown System</b> - Automated waterfall washdown system, rinses the booth automatically after each session or customize your washdown schedule to match your business</p> <p><b>Optional Booth Cleaner BiB</b> - 1.4 gallon bag-in-box containing a special cleaner solution that is injected into the washdown line on your schedule to keep the booth clean and fresh regardless of your tanning volume</p>				
<b>MECHANICS</b>	<p>The Mystic Tan Unity uses a single electrostatic spray nozzle to provide a fast, uniform tan that can wrap evenly around otherwise shadowed surfaces. Two rotational motors provide vertical and horizontal motion to the fixed spray nozzle. An air compressor is used to set up a vacuum pump effect that draws the custom mixed tanning solution from a single session cup to provide two fine mist passes for full coverage.</p>				
<b>ELECTRICAL CONNECTION</b>	<p><b>Wall Outlet</b> - NEMA 6-20</p> <p><b>Power Requirements</b> - System: 208-240 VAC Single Phase, 20 AMP</p>
