HOW TO USE:

For best results, exfoliate 24 hours prior to application. Apply to clean, dry skin using the Norvell Applicator Mitt. Smooth mousse on evenly and blend thoroughly across areas to be tanned. Avoid over application to elbows, hands, knees, ankles and feet. When applying to face, lightly blend into hairline using a make-up sponge, if necessary.

CHOOSE YOUR COLOR:

The ability to get the color you want without the wait! Warm water rinse at 1 hour for a light tan, 2 hours for a medium tan or 3 hours for a dark tan. Do not shower with soap for 24 hours. Although the instant, cosmetic bronzers wash away during the warm water rinse, sunless color continues to develop over the next 24 hours following application.
