

Can HYDRATE, LIFT, and RECOVER be used together?

Yes, WellFit skincare solutions were designed with complementing ingredients that are further optimized when experienced together.

Can WellFit™ Solutions be used with a spray tan?

Yes, we recommend using HYDRATE, RECOVER, and LIFT following your spray tan session for the most ideal results. We would not recommend using more than one skincare option at a time in combination with a spray tan as the skin may have trouble absorbing the treatments.

Are WellFit™ solutions safe to use for all skin?

WellFit skin solutions were engineered to enhance all varieties of skin types. All solutions are made with natural ingredients that are always Cruelty Free, Paraben Free, 100% Vegan, Gluten Free, and Non-Comedogenic.

How often should HYDRATE, LIFT, & RECOVER solutions be used?

As often as you'd like! WellFit skincare solutions can be used daily, with results being amplified by frequent use. Plus, using repeatedly will provide better performance from your common at home skincare.

Can I use WellFit™ Skincare Solutions with other treatments?

Yes, WellFit Skincare Solutions pairs well with other forms of skin treatments such as redlight therapy, infrared sauna, sauna pods, steam pods, spray tanning, and sunbed tanning. Plus, WellFit solutions can be used daily so they seamlessly integrate with your treatment schedule.

How long does a WellFit™ session last?

A WellFit skincare session is complete in less than 2 minutes, making it a convenient option for head-to-toe skincare application. The VersaSpa PRO booth will provide voice guidance for the easy front and back stances.

How does this treatment differ from other common skincare options available?

WellFit advanced spray formulas were created to revolutionize skincare application, with seamless and convenient head-to-toe coverage, providing all-over skin health. The solutions each have unique molecular weights for optimized absorption.

Is there any preparation needed before a WellFit™ session?

No, no preparation is needed prior to a WellFit session as our solutions were created to complement your everyday skincare routine.
