THE WELLFIT EXPERIENCE

- Featuring effortless application, WellFit treatments are applied in under 2 minutes with a spray/mist solution across the entire body.
- The spray system is easy to use with a simple press of a button to select your treatment and begin your treatment session.
- Smart technology provides audio guidance to alert you when to turn around, and the entire experience is heated for comfort.
- All three available treatments (Lift, Hydrate, & Recover) have complementing ingredients that are further optimized when experienced together.
- WellFit treatments can also be used after any spray tan services offered within the VersaSpa PRO spray systems.

THE WELLFIT WAY

- **HYDRATE** contains Triluronic Acid™ proven to provide 24 hours of moisture. The TRI-HYDRO BOOST COMPLEX™ also features glycerin an active humectant that draws in moisture and Sodium PCA to create a healthy moisture barrier.
- **LIFT** has a uniquely blended C-Lift Peptide Complex™ crafted with Argireline® Peptide, Sodium Mannos Phosphate, and Glucine to stimulate collagen production. Together these ingredients mimic the effect of red-light therapy, making skin look (and act) healthier, plumper, brighter, and younger!
- **RECOVER** is created with an invigorating blend, its Nitro+Mineral Complex™ provides instant cooling while crucial Electrolytes refuel fatigued skin and vital minerals restructure vibrancy.

GENERAL WELLFIT QUESTIONS

Can HYDRATE, LIFT, and RECOVER be used together?

Yes, WellFit skincare solutions were designed with complementing ingredients that are further optimized when experienced together.

Are WellFit solutions safe to use for all skin?

WellFit solutions contain trusted, clinically proven ingredients. All solutions are made with natural ingredients that are always Cruelty Free, Paraben Free, 100% Vegan, Gluten Free, and Non-Comedogenic.

How often should HYDRATE, LIFT, & RECOVER solutions be used?

As often as you'd like! WellFit skincare solutions can be used daily, with results being amplified by frequent use. Plus, using repeatedly will provide better performance from your common at home skincare.

Can I use WellFit skincare solutions with other treatments?

Yes, WellFit skincare solutions pair well with other forms of skin treatments such as redlight therapy, infrared sauna, sauna pods, steam pods, spray tanning, and sunbed tanning. Plus, WellFit solutions can be used daily so they seamlessly integrate with your treatment schedule.

RECOMMENDED USE FOR POPULAR SKINCARE TREATMENTS

Redlight Therapy: Use before or after WellFit session; for optimal benefits use before

Sauna & Infrared Sauna: Use before your WellFit skincare session

Steam Rooms or Pods: Use before your WellFit skincare session

Spray Tanning: Use before your WellFit skincare session

Sunbed Tanning: Use before your WellFit skincare session

How long does a WellFit session last?

A WellFit skincare session is complete in less than 2 minutes, making it a convenient option for head-to-toe skincare application. The VersaSpa PRO spray system will provide voice guidance for the easy front and back stances.

How long does a WellFit treatment last?

We recommend leaving the treatments on for 4-6 hours. For optimal results, we recommend treatments at least 3x per week. For maximum benefits, you can use daily.

How does this treatment differ from other common skincare options available?

WellFit advanced spray formulas were created to revolutionize skincare application, with seamless and convenient head-to-toe coverage, providing all-over skin health. The solutions each have unique molecular weights for optimized absorption.

Is there any preparation needed before a WellFit session?

No preparation is needed prior to a WellFit session as our solutions were created to complement your everyday skincare routine.

Do Wellfit treatments have a fragrance?

All WellFit solutions are scented with notes of sea grass and sage.

What should I use during my treatment?

You may use a hair net during your treatment if desired, however it is not required to do so.
