

SUNLESS, INC.

Global Leader in
Spray Tan Technology.

BOOTH OVERVIEW	<p>Mystic Tan® Unity® - The Future Is Customizable - Achieving the perfect glow has never been easier with the new Mystic Tan Unity spray booth. Unity offers the most technologically advanced, personalized spray tanning experience on the market. With Unity's customizable solution mix and MagneTan® Spray System, clients of all skin tones will be guaranteed a natural, flawless looking glow every time. The Mystic Tan Unity app puts the power of customization in your clients' hands. This app-based session tool guides tanners through spray tanning education, skin color and solution selection recommendations, and spray session instruction.</p>

SOLUTION STORAGE SYSTEM	<p>Bulk Bag-In-Box - 1.4 gallon bag-in-box containers provide easy handling and quick change out of your most used solutions while keeping the important solutions fresh and ready to tan.</p> <p>Myxer Pouches - 250 ml pouches for accelerators, bronzers and scents allow for maximum customization.</p> <p>Wellfit Solution Bag-In-Box - 1000 mL bag-in-box containers provide easy handling and quick change out of your Wellfit solutions.</p> <p>More Options for a Customizable Experience - Fill out your 8 bay drawer with your choice of Wellfit solutions, Bronzers, Scents and Accelerator for the most customizable spray experience.</p>	
CLEANING	<p>Automatic Washdown System - Automated waterfall washdown system, rinses the booth automatically after each session or customize your washdown schedule to match your business.</p> <p>Optional Booth Cleaner BiB - 1.4 gallon bag-in-box containing a special cleaner solution that is injected into the washdown line on your schedule to keep the booth clean and fresh regardless of your tanning volume.</p>	
MECHANICS	<p>The Mystic Tan Unity uses a single electrostatic spray nozzle to provide a fast, uniform tan that can wrap evenly around otherwise shadowed surfaces. Two rotational motors provide vertical and horizontal motion to the fixed spray nozzle. An air compressor is used to set up a vacuum pump effect that draws the custom mixed solution from a single session cup to provide two fine mist passes for full coverage.</p>	
ELECTRICAL CONNECTION	<p>Wall Outlet - NEMA 6-20</p> <p>Power Requirements - System: 208-240 VAC Single Phase, 20 AMP</p>	
PLUMBING CONNECTION	<p>Drainage - above or below ground</p> <p>Water Supply - cold water supply and standard washing machine hook-ups</p>	
NETWORK CONNECTIVITY	<p>Internet - Standard WiFi connection.</p>	
WARRANTY	<p>One year warranty on parts and a 90-day warranty on labor. Extended warranties are available for purchase.</p>
