

versaspa®

BoTan Facial Self-Tan Nectar

Protect and rejuvenate skin cells with this **clinical strength** formulation that helps blur fine lines and wrinkles while building a radiant glow

Key Ingredients:

Argireline NP –
Natural botox that helps reduce expression lines and wrinkles

Proshield MDC –
Clinically proven to protect from blue light radiation, reduce exposure to air pollution and is a powerful antioxidant

Hikariblu –
Helps to reduce photoaging and improve skin radiance and suppleness caused by UV ray damage

Natural DHA & Erythrulose –
develops a lasting glow

UV rays and blue light from digital devices have been proven to damage delicate facial skin cells. Protect and rejuvenate with BoTan Facial Self-Tan Nectar, a clinical-strength photoaging treatment that blurs fine lines and wrinkles and naturally shields skin all while building a radiant glow.
